

BUFFER TANKS FOR DOMESTIC HOT WATER WITHOUT
HEAT EXCHANGERS

EV 200 60 B

TIN	305599
Range	200
Net weight	49 kg
Insulation	50 mm
Heat losses ΔT 45K	59 W
Energy class	B
Maximum operational temperature	95 °C
Rated pressure of the water tank	8 bar
Diameter	600 mm

Information

EV 200 60 B

- High-quality enamel coating ensuring long operating life
- Highly efficient PU insulation
- Efficient anode protection
- Service flange for easy inspection of the appliance
- Option for installation of an electrical heating element
- Option for installation of a thermal regulator
- Option for installation of a thermal sensor

Serie information

EV 200 60 B

The range includes models with volumes from 200 to 2000 liters, suitable to cover the demands for hot water of single and multi-family residential buildings.
