

FLOOR STANDING BUFFER TANKS FOR ACTIVE COOLING SYSTEMS WITHOUT HEAT EXCHANGERS

TESY V 200 60 ACF W

SAP	305434
Capacity	202 L
Net weight	47 kg
Insulation	50 mm
Heat losses ΔT 45K	56 W
Energy class	B
Maximum operational temperature	95 °C
Diameter	600 mm
Rated pressure	3 bar

Information

TESY V 200 60 ACF W

- Specially developed to work as part of cooling systems
- Special design preventing condensation (optional set)
- Option for floor installation
- Maximum work pressure of 3 bars
- Appliances can be used as part of heating systems as well

Serie information

TESY V 200 60 ACF W

Floor-standing appliances specially developed for integration in cooling systems with special design to prevent condensation. Model range includes volumes of 160 and 200 liters.
